

To the FDA:

*I am one of those allergic reactions to Rx hormones -  
now totally disabled - I can only take compounded hormones -  
only one in Nebraska is in Omaha - not pharmacist*  
I send this letter as a consumer of healthcare services to register my concern and  
disapproval of the Memorandum of Understanding as published by the FDA on  
January 21, 1999.

The Memorandum of Understanding is a direct threat to the art of pharmacy  
compounding and is of concern to every consumer of healthcare services and products.  
The FDA is an agency of the U.S. Government that purports to be the "watchdog" for  
the consumer. However, as a governmental agency, the FDA also has a responsibility  
to be accountable to the people! 360 99 APR -6 AUG 98

The MOU must be amended!!! In its present form, the MOU severely restricts my  
rights as an individual to obtain the healthcare services and products from the provider  
of my choice. The MOU should be amended so that there are no restrictions to the  
delivery of a compounded medication prescribed for me, regardless of where I may live  
or may travel. *that can be trusted! You can't take away my*

*right to get Rx from WI*
